## Professional Summary

PhD candidate in the School of Computer Science at University College Dublin, researching financial behavioural digital phenotyping for mood episode detection through open banking data, machine learning, and human-centred research, supervised by Dr. Mark Matthews. Author of seven peer-reviewed publications and preprints spanning financial digital phenotyping, computational ethics, and applied machine learning, with over four years of university teaching experience. Background spans applied AI research and mental health community advocacy across Ireland, Rwanda, and Nigeria, underpinned by an MSc from Carnegie Mellon University and a First Class BSc in Electrical and Electronic Engineering.

## Education

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## Presentations

---

- 2026-06      **"Human-Centered AI: Can Putting People First Make AI Safer?"**  
*Presented at Encode Africa's AI Safety Action Week.*
- 2026-05      **"Funded. Prepared. Global"**  
*Panelist at a scholarship clinic guiding prospective scholars on landing global opportunities.*
- 2024-09      **"AI in Healthcare: Opportunities and Requirements"**  
*A talk on applications, challenges, and ethical requirements of deploying AI in clinical and health settings, delivered to the NSK.AI community.*

## Workshops and Conferences Attended

---

- 2024, 2025      **Eyes-Off Data Summit on AI Privacy**  
*Oblivious*
- 2024      **Public Patient Involvement (PPI) Summer School**  
*University of Limerick, Ireland*
- 2024      **IBM Research AI Workshop**  
*IBM and Trinity College Dublin*
- 2024      **AWS Gen AI Game Day**  
*Amazon Dublin (Top 10 of 25 teams)*
- 2023      **International Conference for Learning Representations (ICLR 2023)**  
*Kigali, Rwanda*
- 2023      **International Summer School for Advances in Biometric Authentication**  
*Alghero, Italy (remote)*

## Certifications

---

- 2026 - present      **AI (LLM) Engineering Certification**  
*DataTalksClub (Ongoing)*
- 2026      **Claude Code in Action**  
*Anthropic*
- 2024      **AWS Certified Machine Learning — Specialty**
- 2021      **Microsoft Certified: Azure Fundamentals**
